

Mr. Speaker,

We still do not have the information that the Minister of Human Resources promised this house he would provide on his bungled Canada Summer Jobs program.

Today, there is no way Canadians can access the list of which organizations qualified for program funding for this year. The Minister PROMISED in this House that the information would be made public by the end of May but he has broken his promise.

What is the reason? What is he trying to hide? When will this unaccountable minister tell Canadians how he is distributing the funds?
